WASHOUT WRECKS TRAIN: PASSENGER ESCAPES. L. H. & ST. LOUIS ENGINEER, SCENTING DANGER, BACKS CARS AWAY JUST BEFORE CAVE-IN OCCURS.

Louisville, Ky., July 23rd.—Crew and passengers of a Louisville, Henderson and St. Louis train, which left here on Sunday night for St. Louis, returned yesterday with an interesting story of unusual experiences. Thirty miles out the passenger's engineer saw the rear end lights of another train, a freight, the progress of which was stopped by a landslide. Engineer Bush succeeded in checking his train upon a trestle over Otter Creek, and went forward in a pouring rain to investigate. The deluge had so rottened the earth walls of a cut that the whole hillside fell just as the freight was passing, completely burying a large part of the train and overturning both engine and tender.

Engineer Bush essayed to back his train to Louisville, but had no more than started when the hillside he had scarcely passed slipped down upon the track. Volunteers went both ways to telephones, and a wrecking train sent out from Louisville kept a large force busy the rest of the night and well into the morning. Conductor Stites led his 100 passengers to the nearest farm houses for breakfast, and it was late in the day before they reached Louisville receiving tickets for St. Louis over other lines. The crew of the freight had narrowly escaped from when the hillside engulfed the train. Our fellow townsman Johnson was a passenger on the train.

closing some deals. He says he

It is difficult to predict what the

off but he is never idle in the line
from "charging the rebels" to
perpetrating those hearty Dave

Many visitors will regret to learn
that Cull McClure has withdrawn
from the mule races at the fair.
He "kicked" on one of the rules
that required him to stand hitched
by a rope halter while races were
not going on. He had no par-
ticular objection to standing in
a stall, but no rope halter goes with
him.

Eat and play pool with Sowder next door to Fish's on Main St.

A telephone will be installed in secretary's office Mt. Vernon Fair.

Noe & Davis' is the place to get your soft drinks, fresh fruits and cold lunches.

Some men are a great deal more successful in concealing their yellow streak than others.

Company made a most excellent choice, in selecting a man to handle the interest of the company in and around Brodhead.

Fred Owens piloted the old Rambler auto to Crab Orchard a few days since for Lancaster parties who had purchased the machine from the owner at this place. It took Fred 19 hours to make the 13 miles. It is claimed he passed through Crab Orchard on three wheels, engine working on one side, muffler gone making a noise that could be heard three miles; many horses left town and citizens took themselves to storm cellars thinking a cyclone was on tap. Fred says it was tough enough without exaggerating the case, but would have taken it through if he had had to hitch himself to the machine and drag it in.
